

The Annual Convention on Electricity & Energy 2026 November 10 – 14, 2026, Herods & Dan Eilat

Invitation to Exhibit at the Professional Expo of the Convention

The Association invites companies to participate in the "Electricity and Energy 2026" convention and exhibition, which will take place on Wednesday and Thursday, November 11–12, 2026, at the Herods and Dan hotels in Eilat.

This convention is the largest professional and social event in the field of electrical and energy engineering in the country, celebrating its 25th anniversary this year. More than 2,500 engineers and professionals from 500 companies, factories, academic institutions, government ministries, and private firms are expected to attend.

The diverse and rich convention program includes 50 plenary and parallel sessions, featuring more than 200 professional lectures on current topics in electrical and energy engineering, and HVAC. As always, the convention will host one of Israel's largest professional exhibitions, where over 80 leading local and global companies will showcase cutting-edge equipment, new products, and innovative technologies in electricity, HVAC, energy, and plumbing systems.

The combination of an extensive professional program and a technological exhibition has long made the Association's annual convention the flagship event for all professionals in electrical engineering, control systems, energy, and HVAC

Exhibition Schedule

Wednesday, November 11, 2026: 8:00 AM – 6:00 PM

Thursday, November 12, 2026: 8:00 AM – 6:00 PM

Setup and Dismantling Times *(Final hours will be confirmed closer to the event)*

Tuesday, November 10, 2026: Exhibition Setup

Thursday, November 13, 2026 – Dismantling (Starting at 6:00 PM)

Important Notes

- Booth selection is subject to availability and production constraints, and is handled on a first-come, first-served basis.
- Submitting the booth reservation form does not constitute confirmation. A deposit payment must be made within 7 days of form submission.
The booth will be reserved only after payment has been received and written confirmation has been issued.

Exhibition Display Options

Exhibiting companies may choose to participate in one or more of the designated areas. The Pavilion and Herods Boutique Hotel Foyer will feature displays focused on the electrical sector, while the Dan Eilat Hotel's lower foyer and main exhibition hall will focus on HVAC and energy technologies

This year, a networking area will be available in the patio adjacent to the Herods Boutique Hotel Foyer, where refreshments will be served to convention attendees

The Dan Eilat Hotel's lower foyer and main exhibition hall will focus on HVAC and energy.

Additionally, digital screens (2x3m) will be available on the bridge connecting the Herods Palace Hotel and the Pavilion, accessible to any interested exhibitor for the 2 days of the exhibition

All exhibition spaces are pre-defined and intended for **self-constructed booths**. Booth construction is the **sole responsibility of the exhibitor**.

The standard booth size is **6 square meters** (2m × 3m), depending on the location on the exhibition map. Exhibitors may request a **double-size space** of **12 sqm**, such as 2m × 6m or 3m × 4m, also subject to location on the map.

Each booth includes **one standard Israeli power outlet**, **one table** (1.70m × 0.45m), and **two chairs**.

The **maximum booth height** in the central areas of the pavilion and in the front circular zone is **3.00 meters**. In the rear circular section adjacent to the pavilion walls, as well as in the **foyer of the Herods Boutique Hotel** and the **Dan Hotel**, the maximum height allowed is **2.40 meters**.

Booth Structure Approval

Approval of the booth's construction must be secured by the exhibitor. All structures must undergo review by a certified structural engineer; therefore, exhibitors must submit renderings and full technical specifications to the designated inspection company. Venue work is subject to supplier safety regulations distributed prior to the convention.

Exhibition Space Allocation and Payment Terms

Based on previous conventions, the steering committee will approve booth locations in the order registrations are received. To secure a location, companies must submit a signed commitment form. Upon receipt, the committee will review and confirm based on space availability.

חשמל ואנרגיה 26 Electricity & Energy 26

Companies reserving booth space must pay a **20% deposit within 7 days** of booking. In case the convention is canceled due to government directives, all payments will be fully refunded. Companies canceling their participation **by September 1, 2026**, will receive a full refund of their deposit. Deposits are non-refundable for cancellations after this date. The remaining balance for the reserved space must be paid by **October 15, 2026**.

Exhibition Packages Include:

- A. Listing of the company name (and logo) as an exhibitor in the program booklet, event website, and convention publications, subject to the selected package
- B. Projection of the company logo during central convention events
- c. A professional presentation by a company representative in one of the sessions (subject to Call for Papers terms and program committee approval)
